

## ***L'avenir – The future and The present***

L'avenir is not just a playschool, it is a beautiful life that has been gifted to our children who are fortunate to be a part of the family of L'avenir. L'avenir has given to the children a tremendous amount of self-confidence and self pride. It has also in the truest sense instilled the values of self-awareness and discovering one's inner self among the children.

The inclusive and the participative games have enhanced the children's willingness to participate and as a result they accept the fellow children very positively in social situations.

The children have become fond of nature and outdoor environment because of emphasis that has been laid on physical activity. The activities at L'avenir are extremely innovative and they inspire children to be creative and imaginative.

The teachers/ didis at L'avenir defend the children against their own personal influence which inspires tremendous amount of self-trust among the children. L'avenir has balanced all activities that are significant as well as vital for the overall growth of the child. L'avenir not only guides the children but also positively shows the parents the best way in which their little one shall blossom. I must mention here that I was extremely grateful to L'avenir for the effort that was made in preparing the report summary of my child in the first quarter. As a parent, I felt very satisfied and contented when I saw that even the smallest attribute of her nature was noticed and appreciated.

L'avenir truly believes in the philosophy that was professed by **Plato**, that being, ***“Do not train children to learning by force and harshness, but direct them to it by what amuses their minds, so that you may be better able to discover with accuracy the peculiar bent of the genius of each.”***
