

The Gnostic Centre Registration story

THE DECISION TO REGISTER THE GNOSTIC CENTRE brought with it a joy as also a struggle.

THE STRUGGLE TO STAND FOR TRUTH, to get the work done as an instrument and not to be swayed or bogged down by the outer circumstances to take an easy way out, i.e. trying to bribe my way through. The aspiration not to give into the system was so strong - in fact it felt as though I was consumed by this thought - my whole being was only aspiring towards that.

AND, LO AND BEHOLD, the government officials who as per common knowledge would refuse to work if not given their 'chai-paani', willingly and without any demands whatsoever did the work and helped me complete the forms. And within a record time of 15 days we got The Gnostic Centre registered. It felt as though The Mother herself was working through them. The working of the Grace at every moment during that period was so very concrete and real.
